

Speech Language Pathologist

As a successful Speech Language Pathologist you will work with the Student Support team to provide quality school-based speech language services, which includes: assessment, diagnosis, and treatment of speech-language, social-communication, and cognitive-communication disorders in children. The Speech Language Pathologist is a member of the IEP team and is responsible for developing appropriate IEP goals to meet student needs; communicating with teachers, parents, and related service providers; and ensuring that student goals are addressed in and/or outside of the classroom.

Position Description and Expectations

- Conducting assessments and evaluations in accordance with parent/guardian and student rights and Louisiana Bulletin 1508.
- Using a variety of appropriate tools and techniques to evaluate and report student progress.
- Utilizing purposeful speech activities that support goals and increase access in the general education setting.
- Providing services to students in ways that build upon individual strengths and offering students opportunities to participate in their own learning experience.
- Serving as the case manager and developing and implementing IEPs to meet the individual needs of the student.
- Participating as an active IEP team member in IEP meetings.
- Preparing and maintaining accurate records and progress notes.
- Educating and demonstrating therapy techniques to parents that can be incorporated into the home.
- Effectively communicating with school administrators, teachers, student service personnel, and parents regarding student performance and plans for improvement.
- Participate in Professional Development

Qualifications

- Professional licensure and Louisiana certification in speech language pathology (CCC-SLP)
- Bachelor's Degree
- Ability to prioritize, organize, and manage multiple caseloads of students
- Successfully works collaboratively with a team of adults
- Communicates regularly with parents, faculty and staff
